

# SOME VERY MESSY MEDIEVAL MAGIC

By **C. Lee McKenzie**

## **Pete's stuck in medieval England!**

Pete and his friend Weasel thought they'd closed the Time Lock. But a young page from medieval times, Peter of Bramwell, goes missing. His absence during a critical moment will forever alter history unless he's found.

There's only one solution - fledgling wizard Pete must take the page's place. Accompanied by Weasel and Fanon, Pete's alligator familiar, they travel to 1173 England.

But what if the page remains lost - will Pete know what to do when the critical moment arrives? Toss in a grumpy Fanon, the duke's curious niece, a talking horse, and the Circle of Stones and Pete realizes he's in over his young wizard head yet again...
